OnePlus 13 Mini launch timeline, specification, price and all other leaks

New leaks have now revealed key details about OnePlus 13 Mini's design, specifications, pricing, and expected launch date. While the official name is still uncertain, reports suggest this device will be OnePlus' most compact flagship yet. It is expected to launch around May or in Q2 2025. If the leaks are accurate, it will be the most affordable Snapdragon 8 Gen 3 Elite-powered smartphone.

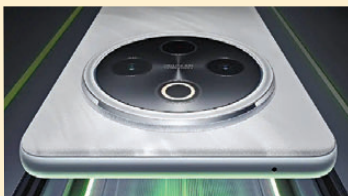

Further, it is expected to carry a 6.31-inch LTPO OLED panel with 1.5K resolution and a 120Hz refresh rate. For cameras, the phone can get a dual camera setup with a 50-megapixel main camera and a 50-megapixel telephoto lens with 2x optical zoom. <https://tinyurl.com/nxa9jn7h>

■ SMARTPHONE LAUNCH

iQOO Z10 launch date, price, specs and everything else we know so far

iQOO recently launched the Neo 10R smartphone in India. Now, the company is gearing up to launch a new smartphone, the iQOO Z10 5G, in the country in April.

This new device will be the successor to last year's iQOO Z9 5G and is expected to bring several improvements. While the official details are still under wraps, leaks and rumours

have revealed some key specifications. The iQOO Z10 5G is expected to come with a 6.67-inch quad-curved AMOLED display offering a 2400×1080 resolution and a 120Hz refresh rate. <https://tinyurl.com/2tubexcs>

Apple iPhone 17 Pro leaks: Price, specifications, design and more

The iPhone 17 series is expected to make its global debut in September this year. Apple is expected to

offer some massive changes with the iPhone 17 Pro series including the design, camera and performance upgrades. The latest leaks suggest that the iPhone 17 Pro Max will be rebranded as iPhone 17 Ultra. Speaking of the iPhone 17 Pro, it may see a new design with more powerful specifications compared to its predecessor. <https://tinyurl.com/y49wuwj9>

Samsung Galaxy Z Fold 7 price in India, camera, display and all other leaks

According to leaks, the Galaxy Z Fold 7 will feature an 8.2-inch inner AMOLED display and a 6.5-inch outer AMOLED

screen. Under the hood, the device will likely be powered by Qualcomm's Snapdragon 8 Elite chipset. It is expected to be available with up to 12GB RAM and 512GB of internal storage. Furthermore, this foldable smartphone is expected to be backed by a 4,400mAh battery.
