■ SMARTPHONE LAUNCH

OnePlus 13T with the Snapdragon 8 Gen 3 is finally here!

After launching two decent smartphones, OnePlus has launched another 13 series smartphone in China viz. the OnePlus 13T, which is powered by the Snapdragon 8 Gen 3, the same chipset that we get on the OnePlus 13R. The last T series smartphone launched by the brand was the OnePlus 10T. The OnePlus 13T is equipped with a compact 6.32-inch OLED display that supports a 120Hz refresh rate. Furthermore, it is a 1.5K panel, the same resolution that we get on the OnePlus 13R. The OnePlus 13T has been launched in China at CNY 3,199. In India, this would convert into around ₹40,000.

■ LAPTOP LAUNCH

HP launched 9 new AI laptops for different use cases

HP dropped what it's calling its most powerful lineup of AI PCs yet—nine laptops spanning the EliteBook, ProBook, and OmniBook series. But this launch isn't about flashy names or surface-level upgrades. These machines

come equipped with dedicated NPUs capable of pushing 40 to 55 trillion operations per second. HP is calling them Copilot+ PCs and claims these machines will embed AI into your everyday workflow.

Whether it's noise cancellation during Zoom calls, live file summarisation, or battery tuning based on your usage, HP emphasises that these features are built directly into the hardware. We will be reviewing them soon.

Apple will make all US iPhones in India by 2026

Apple aims to manufacture all US-sold iPhones in India by the end of 2026, according to reports by the Financial

Times and Bloomberg. This ambitious move would roughly double India's annual iPhone output to more than 80 million units, as the tech giant responds to tariff pressures and seeks to diversify production beyond China. Apple's manufacturing expansion in India has been facilitated by Foxconn Technology Group and Tata Electronics. tinyurl.com/yp897ezd

Nikon Z5II full-frame camera officially launched

Nikon India has launched the next-gen full-frame mirrorless camera, the Z5II. This camera is aimed straight at content

creators, videographers, and professionals who live life on the go. The open sale of this camera went live on April 24, 2025, and it is priced at Rs 1,49,995 for the body only. The Nikon Z5II is powered by a 24.5MP full-frame BSI CMOS sensor paired with the EXPEED 7 image processor. tinyurl.com/mtnjk2t2
