

AFTER

By the war's end, the Union army had embraced a scorched earth policy to disrupt Confederate supply networks.

SCORCHED EARTH

In the fall of 1864, General **Sheridan burned the Shenandoah Valley** (see [The Valley Campaign](#)). Shortly after, General Sherman embarked on the **march through Georgia and the Carolinas** (see [Sherman's March to the Sea](#)) that devastated the heart of the Confederacy and caused perhaps \$100 million in damage.

NEW DEVELOPMENTS

Mechanized transportation, along with **advances in military telegraphy, signaling, and airborne observation**, ushered in a revolution in military logistics and communication.
