

AFTER

By the end of 1864, the war in the states that bordered the Mississippi River had mostly ended.

FINAL ENCOUNTERS

In August 1864, Admiral David G. **Farragut overcame Mobile's seaward defenses** (see [The Battle of Mobile Bay](#)), while the city itself held out until war's end. In November, after continued raiding in Tennessee, Forrest and his command joined the Army of Tennessee on its fateful march to [Franklin and Nashville](#).

Forrest's glory days were over, however. In early 1865, a massive Union cavalry raid through Alabama and Georgia (see [The Carolinas and Alabama](#)), led by **General James H. Wilson**, defeated Forrest at each encounter.

PRICE'S EXILE

GENERAL JAMES H. WILSON

Rather than surrender in 1865, General **Price led many of his men into Mexico**, where they hoped to serve the Emperor Maximilian. They established a Confederate exile colony in Veracruz.
