

Davis and his generals

The depiction of Davis (center) in military uniform reflects his prior military experience and his tendency to involve himself in the details of military affairs.

After the war

Davis survived the war and two years of imprisonment at Fort Monroe. He continued to defend the Southern cause in print and engaged in various unsuccessful business ventures. But he refused to seek a pardon from the Federal government, which would have allowed him to resume a political career. His death in 1889 was marked by a funeral of imposing proportions.
