

AFTER

After the Battle of Stones River, General Braxton Bragg faced harsh criticism and an ugly internal dispute. The state of Kentucky became the scene of guerrilla fighting.

SUBORDINATE INSURRECTION

While Rosecrans was turning Murfreesboro into an **impregnable fortified base**, Bragg faced a revolt of his subordinate officers, orchestrated by Polk. President Jefferson Davis elevated General Joseph E. Johnston to theater commander, and **expected him to relieve Bragg**. But Johnston left Bragg in his command.

KENTUCKY UNDER THE HEEL

There was no further Confederate attempt to invade Kentucky, but it remained the **target of cavalry raids**—by John H. Morgan in December 1862 and July 1863, and by Nathan Bedford Forrest in spring 1864.

Guerrilla warfare in the state was met in July 1864 by the **imposition of military rule** under Union **Major General Stephen Burbridge**. His harsh regime earned him the nickname "**the Butcher of Kentucky**."
