

BOBA FETT'S SHIP

Boba Fett inherited this *Firespray*-class ship from his father, Jango Fett, and the vessel has been in operation for decades. The ship has been modified by both Fetts and has many hidden weapons to surprise Boba's prey.

FETT AT THE HELM

Jango Fett taught Boba how to pilot the vessel when he was young. Boba is an amazing pilot and able to complete daring maneuvers in space or in the atmosphere.
