

SCARY SIGHT

At night this AT-ST looks very evil, with red light shining out of its viewports. Thankfully, the vehicle is destroyed by Cara Dune in battle.

RAIDER AT-ST

The raiders have an old Imperial vehicle at their disposal. It is an All Terrain Scout Transport (or AT-ST), which walks on two legs and is equipped with powerful blasters. While it hasn't been repaired to Imperial standards, the AT-ST is still a formidable vehicle that strikes fear into experienced warriors Cara Dune and Mando.
