ISSUE #1

In the first *X-Men* comic, Jean Grey arrived at Professor Xavier's school, met her future husband Scott Summers, became Marvel Girl, and first battled Magneto.

Jean's telekinetic power enables her to levitate objects.

When Jean Grey was ten years old, her best friend, Annie Richardson, was hit by an automobile. Jean's anguish as she held her friend activated her mutant telepathic powers, and Jean thus shared Annie's emotions as she died. Traumatized, Jean suffered from deep depression and was unable to control her new telepathic powers.

MARVEL GIRL

When Jean was eleven, her parents turned to Professor Charles Xavier (see PROFESSOR X) for help. Xavier created psychic shields in Jean's mind to prevent her from utilizing her telepathic powers until she was mature enough to control them. He also began training her telekinetic ability to mentally manipulate objects. As a teenager, Jean enrolled in Xavier's School for Gifted Youngsters, becoming the fifth member of the original X-Men, the team of young mutants whom Xavier was training to combat mutant menaces to humanity. Grey was given the codename "Marvel Girl."

Jean Grey was only a small child when she first met Charles Xavier. She joined the X-Men in her mid-teens.

Grey and her fellow student Scott Summers (CYCLOPS) quickly fell in love, although they did not reveal their feelings to each other for a long time. After she had trained for years at his school, Xavier finally enabled Grey to use her telepathic powers.

Following Xavier's recruitment of a new class of X-Men, Grey left the team. However, soon afterwards she and other X-Men were abducted by SENTINELS to a space station orbiting the Earth. The X-Men had to escape back to Earth in a space shuttle during a solar radiation storm. Grey volunteered to pilot the shuttle, although she had to sit in a section without sufficient radiation shielding. Grey's powers proved insufficient to hold back the intense radiation, and it began killing her.

Phoenix Force: This primal power of creation and destruction manifests itself as a gigantic bird of prey composed of cosmic flame.

PHOENIX FORCE

A sentient cosmic entity of limitless power, the Phoenix Force, made contact with the dying Grey. The Phoenix Force created a human host body for itself that was a duplicate of Grey's, and infused it with a portion of her consciousness. The Phoenix Force placed Grey's original body into suspended animation within a large cocoon, in which it would

slowly heal. When the shuttle crash-landed in Jamaica Bay, the Phoenix Force's new host body rose from the water, declaring herself to be Phoenix. The X-Men believed that Phoenix was the real Jean Grey, and Phoenix/Grey joined the team.

The X-Men's old foe the criminal Mastermind began manipulating Phoenix/Grey's mind to prove his worthiness to join the Inner Circle of the
