

The X-Men 2099 were initially based in the mountains of New Mexico.

X-MEN 2099

In an alternate future, the Earth is ruled by malevolent, self-serving corporations and mutants have been outlawed—forced underground.

In the year 2099, one mutant dedicated himself to overthrowing this oppressive world order. Gathering some of the surviving mutants together to form a new band of X-MEN, the almost messianic Xi'an Chi Xan (also known as the Desert Ghost) began challenging this status quo.

Initially based at a mountain fortress in New Mexico that had once belonged to an enemy named Master Zhao, these X-Men were to become the protectors of Halo City in

California, which had been declared a safe haven for mutants. However, when an approaching PHALANX planetoid caused severe flooding, mutants and humans were forced to flee to the Savage Land, in the Antarctic. Following the Phalanx's defeat, humanity is now in a position to rebuild. With humans and mutants now united together, the future is, once again, full of possibilities. **AD**

X-STATIX

Rather than hide their mutant abilities from a bigoted humanity, the members of X-Statix took a completely opposite approach. They used their mutant powers to become rich and famous. The team was known as X-FORCE, having stolen the name from another mutant band.

The members of this new X-Force battled criminals to protect the public. But their adventures were telecast as a reality show, and members became celebrities. They paid for their success with their lives. During one show, most of the team, including the leader Zeitgeist, were massacred. Only the Anarchist, the teleporter U-Go Girl, and Doop survived.

Guy Smith, alias the ORPHAN and Mister Sensitive, became the leader. Other recruits included Bloke, Dead Girl, El Guapo, Phat, Saint Anna, the Spike, Venus Dee Milo, and the Vivisector. Smith was succeeded as leader by the Anarchist and mutant pop star Henrietta Hunter. To avoid potential legal action, the group changed its name to X-Statix. The team continued to suffer fatalities, and the roster was completely wiped out on X-Statix's final mission. Their adventures continued, however, in the afterlife. **PS, MF**

Mr. Sensitive and Venus were lovers until both died on their final mission.
