

■ SMARTPHONE LAUNCH

Poco F7 Snapdragon 8s is finally here

The Poco F7 has officially launched in India, focusing on high performance, long battery life, and premium design. Key highlights include the powerful Snapdragon 8s Gen 4 chipset, a massive 7,550mAh silicon-carbon battery, and IP69-rated durability — a first in its category. It features a 6.83-inch 1.5K AMOLED display with 120Hz refresh rate and 3,200 nits peak brightness, protected by Gorilla Glass 7i. The phone runs HyperOS 2.0 based on Android 15, with 4 years of OS updates and 6 years of security patches. It offers 12GB RAM, up to 512GB UFS 4.1 storage, and supports 90W fast charging and 22.5W reverse wireless charging. Camera-wise, it houses a 50MP Sony IMX882 main sensor with OIS, 8MP ultra-wide lens, and a 20MP selfie camera. tinyurl.com/pcf7la

■ IOT ANNOUNCEMENT

OnePlus to make IoT products with Optiemos

OnePlus has announced plans to locally manufacture premium Internet of Things (IoT) products in India through a partnership with Optiemos Electronics Ltd. (OEL), under its Project Starlight initiative. This collaboration will focus on producing devices like True Wireless Stereo (TWS) earbuds and wireless neckbands at a Noida-based facility, expanding OnePlus' existing local manufacturing footprint. CEO Robin Liu emphasized India's key role in OnePlus' journey, calling the move a step toward "smarter, more connected experiences" for Indian users. tinyurl.com/1plusiot

Meta introduces Oakley AI smart glasses

Meta has partnered with Oakley to launch the Oakley Meta HSTN, a new line of performance AI smart glasses designed for athletes and fitness enthusiasts. Combining Oakley's sporty design with Meta's advanced wearable tech, the glasses feature a 3K Ultra HD camera for hands-free video, Meta AI for real-time updates and voice input, and built-in speakers for audio without earbuds. With IPX4 water resistance ideal for intense workouts. tinyurl.com/meta00kl

Oppo K13x with Mediatek Chipset Launched in India

Oppo has launched the K13x in India as part of its K13 series, offering a solid blend of design, performance, and durability under ₹15,000. Featuring a 7.99mm slim body with a 360-degree armour build, the phone is available in Midnight Violet and Sunset Peach. It sports a 6.72-inch Ultra Bright LCD display with 1000 nits brightness, 120Hz refresh rate, and Gorilla Glass 7i protection, all powered by MediaTek Dimensity 6300 chipset. tinyurl.com/k13oppx

MediaTek Dimensity 8450 chipset announced

MediaTek has introduced its latest Dimensity 8450 chipset at the India Dimensity Summit, aimed at powering next-gen premium smartphones. The new SoC will debut on the Oppo Reno 14 Pro, with another K series phone to follow. Built around an All Big Core CPU architecture, it features eight Arm Cortex-A725 cores and Mali-G720 MC7 GPU, claiming 30% faster performance over rivals. tinyurl.com/mtd8450
