Are AI chatbots safe for children?

The rapid rise of artificial intelligence (AI) has transformed the way children and teenagers interact with technology, from educational tools to entertainment companions. While these systems promise convenience and engagement, they also raise significant concerns regarding safety, privacy, and the potential for exposure to inappropriate content. In response, the US Federal Trade Commission (FTC) has launched an inquiry into major technology companies, including Google parent company Alphabet, Meta, Instagram, xAI, Character.AI and OpenAI, to examine how their AI chatbots impact minors. The regulator is seeking detailed information on data collection practices, safeguards against harmful interactions, and transparency measures. Experts warn that unchecked AI interactions could affect mental health, social behaviour and information literacy among young users, and the need for accountability in AI tech. tinyurl.com/3bbckmn6

How Grok, ChatGPT, Claude, Perplexity, and Gemini handle your data for AI training

In 2025, AI chatbots like Grok, ChatGPT, Claude, Perplexity, and Gemini have become indispensable tools for everything from drafting emails to solving complex problems. But as we pour our questions, prompts, and even personal files into these platforms, a critical question looms: what happens to our data? Specifically, how do these companies use our interactions to train their AI models, and what control do we have over it? Let's dive into the privacy policies of these five major AI players to understand their approaches, based on the latest information available. Note that policies evolve, so always check official sources. tinyurl.com/3bhwdpps

AI bot minister appointed to curb corruption

Albania has become the first country to appoint an AI-generated bot as a minister to oversee public procurement. The virtual official, called Diella, which means "sun" in Albanian, will manage

all govt tenders and contracts through which private companies carry out public projects. PM of

Albania said her role is to ensure public tenders are "100% free of corruption" of any kind. tinyurl.com/mr34y9ve
