

COMPACT LAPTOPS

46 2025 MacBook Air

Apple launched a new MacBook Air this year and it is one of the best options in the market right now. Don't let its lightness fool you as the M4 chip inside is a performance powerhouse. The 13.6-inch Liquid Retina display turns everyday scrolling or binge-watching into a visual treat with stunning clarity and over a billion colours. With all-day battery life, Mag-Safe charging, and seamless syncing across your Apple devices, this Air is perfect for anyone who wants style, speed, and elegant portability.

47 Lenovo Chromebook Duet

Think of the Lenovo Chromebook Duet as the Swiss Army knife of compact laptops. Tiny enough to tuck into your backpack, this one's light, fast, and quite capable of han-

dling your day to day demands. The detachable keyboard turns it from a full-fledged laptop to a tablet in seconds. The laptop runs on ChromeOS and keeps everything simple. Long battery life with no fuss is the bonus.

48 Microsoft Surface Pro 11

The Surface Pro 11 is for the users who want a laptop that bends to their lifestyle. Need a tablet for sketching? Done. Now need a laptop to handle those work video calls and emails? Whether you're a working professional, creator, student, or digital nomad, the Surface Pro 11 is flexible, stylish, and smart.

49 HP Pavilion Aero 13

Perfect for creators and professionals who are always travelling, the HP Pavilion Aero 13 manages

to feel feather-light at just about 1 kg. And this is without skimping on speed or style. The laptop's 13.3-inch WUXGA (1920×1200) display is vibrant and spacious with rich, accurate colours. Under the hood, the Ryzen 7 8840U and Radeon graphics, backed by 16 GB RAM and a 512 GB SSD, ensure multitasking is smooth and media playback crisp.

50 ThinkPad X13

The ThinkPad is a classic! With a compact 13.3-inch WUXGA display, the laptop comes with Dolby Audio, and a 5MP camera for those virtual work meetings. Under the hood, Intel Core Ultra 7 with an integrated NPU promises efficient, AI-driven productivity. Add in Wi-Fi 6E, robust ThinkShield protection, and it's a laptop that's durable and ready to go.

TVs ABOVE 1 LAKH

51 Samsung S95F OLED

The Samsung S95F OLED (₹1,74,990) is a flagship 4K TV with a more efficient QD-OLED panel, delivering higher peak brightness and superb colour. Its matte anti-glare coating makes it ideal for bright rooms, while HDR10+ content looks stunning with perfect blacks and wide viewing angles. Gamers get 165Hz refresh, VRR, and ultra-low input lag. With Tizen OS, 70W 4.2.2 speakers, and Dolby Atmos support, it's an all-around premium pick.

52 Bravia 5

The Sony Bravia 5 (₹1,25,990) upgrades to a Mini LED backlight with more dimming zones for deeper contrast and vibrant colours. It is powered by the XR processor and

Google TV and supports Dolby Vision, DTS passthrough and even lets its speakers act as a centre channel with Sony soundbars. With HDMI 2.1, 4K @120Hz, VRR, and G-SYNC support, it's a solid all-rounder for both movies and gaming.

53 Sony Bravia 7

The Sony Bravia 7 (₹1,49,490) combines a bright Mini LED VA panel (up to 2000 nits) with excellent colour accuracy and Sony's XR processing for impactful HDR. Running refined Google TV with Sony extras like Bravia Core, it supports Dolby Vision, HDR10, HDMI 2.1 gaming at 4K/120Hz with VRR, and delivers rich, balanced audio.

54 LG G5 OLED

The LG G5 OLED (₹2,09,990)

pairs its Alpha 11 AI Gen 2 processor with a stunning OLED panel for perfect blacks, vibrant colours, and wide viewing angles. With Dolby Vision HDR, HDMI 2.1 on all four ports, 4K up to 165Hz, VRR, and Game Optimizer mode, it's a top-tier choice for movies, sports, and gaming alike.

55 Sony BRAVIA 8 II OLED

The Sony Bravia 8 II (₹2,37,490) uses a new QD-OLED panel with XR AI processing for adaptive picture tuning. It delivers perfect blacks, vibrant colours, and wide viewing angles with Dolby Vision, DTS passthrough, and Google TV. With HDMI 2.1 (4K/120Hz), VRR, and S-Center input for soundbar pairing, it's a premium all-rounder best suited for darker rooms.
