

GAMING MONITORS

86 ASUS TUF Gaming VG259QM

At under ₹18k, the VG259QM is a budget esports monster. Its 24.5-inch Full HD Fast IPS panel runs at a blistering 280 Hz (OC) with 1 ms GtG response time. Add in ELMB-SYNC (motion blur reduction + VRR together) and G-SYNC compatibility, and you've got one of the fastest displays for competitive shooters.

87 Acer Nitro ED270U S3

Priced around ₹16.5k, this 27-inch QHD curved VA panel is one of the most affordable ways to step up to 1440p gaming. Its 180 Hz refresh rate ensures smooth visuals, while the gentle 1500R curve adds immersion in racing or RPG titles. It's the definition of bang for buck in the Indian market.

88 MSI G274QPF E2

At ₹24–25k, the G274QPF E2 gives you a 27-inch Rapid IPS panel with 180 Hz refresh and 1 ms

response, hitting the sweet spot between speed and sharp image quality. With Adaptive Sync, it works equally well on PC or consoles at 1440p/120 Hz, making it a balanced all-rounder.

89 Gigabyte M28U

Available at ₹36–39k, the M28U is one of the most affordable true 4K/144 Hz monitors with HDMI 2.1 support. At 28 inches, it's sharp and console-friendly, letting your PS5 or Xbox Series X run 4K/120 Hz with VRR. This makes it a value 4K choice for those who want high resolution without sky-high pricing.

90 LG UltraGear 27GN950-B

Sitting in the premium ₹42–45k bracket, the 27GN950-B packs a 27-inch Nano IPS 4K UHD panel with 144 Hz refresh and VESA DisplayHDR 600 certification. It delivers rich, wide-gamut color (98% DCI-P3) and true HDR brightness, making it the eye-candy king for single-player and cinematic gaming. Worth getting it, if you have a soft spot for LG.

GAMING HEADSETS
