

LEVEL UP YOUR CAMPUS

BECOME AN SCGC STUDENT AMBASSADOR!

College is not just about grades and deadlines; it's also about finding spaces where your passions can thrive. For gamers, that space is growing faster than ever, thanks to the SKOAR! College Gaming Club (SCGC). With more than 65 partner colleges, 1,500+ esports teams, and a buzzing community of 35,000+ members, SCGC has become the largest college gaming movement in India. And now, through its Student Ambassador Program, it's giving students the chance to become leaders of this growing wave.

LEAD THE GAMING MOVEMENT ON CAMPUS

Being an SCGC Student Ambassador means becoming the face of gaming at your college. It's your chance to put your campus on India's gaming map by promoting esports, building communities, and creating unforgettable experiences for students.

From setting up notice board posters to creating buzz on social media, from gathering players for BGMI scrims to running casual LAN nights — ambassadors play a key role in keeping the college gaming scene alive and thriving. More importantly, they act as the official bridge between their cam-

pus and the wider SCGC ecosystem, ensuring no student misses out on opportunities to compete, connect, and grow.

By driving awareness of tournaments, encouraging student participation, and even helping gather feedback, ambassadors ensure that their college stays plugged into India's fast-growing esports culture. They don't just represent their peers — they represent an entire community of gamers eager to take their skills to the next level.

GAIN RECOGNITION AND REAL EXPERIENCE

The Student Ambassador Program isn't just about esports —
