■ SMARTPHONE LAUNCH

Realme 15 Pro Game of Thrones Edition launches

Realme has launched the Realme 15 Pro Game of Thrones Limited Edition, a collector's version of its flagship phone inspired by House Targaryen. It features a Dragonfire leather back that shifts from black to fiery red with heat, 3D-engraved Dragon Claw, and a gold sigil. Apart from design and themed packaging,

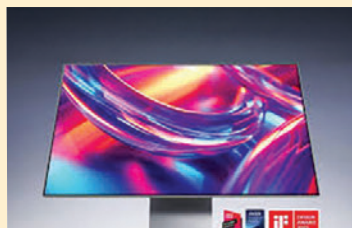

specs remain the same – Snapdragon 7 Gen 4, 6.8-inch AMOLED, and 7000mAh battery – priced at ₹44,999. Whether you are a Game of Thrones or not (scarred by its fall from grace toward the latter seasons?), this phone's cool! tinyurl.com/rm15got

■ MONITORS LAUNCHED

LG UltraFine evo announced as world's first 6K monitor with Thunderbolt 5

LG has unveiled an absolute beast of a display, which is the UltraFine evo 6K (32U990A), the world's first 6K monitor with Thunderbolt 5 support, designed for professional creators. The 32-inch display

offers 6,144x3,456 resolution, 98% DCI-P3, 99.5% Adobe RGB, and HDR 600 certification. Thunderbolt 5 enables 120Gbps bandwidth, triple that of Thunderbolt 4. Launching in South Korea and Japan

in September, followed by global rollout in October, pricing is yet to be revealed. Will you be interested in buying such a cutting-edge display? tinyurl.com/lg6ke

IIT Madras to build India's 7-nm Shakti chip by 2028

IIT Madras, backed by the government's Semicon India Programme, is developing India's first indigenous

7-nanometre Shakti processor, targeted for completion by 2028. Built on open-source RISC-V architecture, it aims to power defence, finance, and AI systems. The project marks a leap from earlier chips like IRIS and Moushik, symbolising India's push for technological self-reliance and a domestic semiconductor ecosystem. tinyurl.com/isnc2

Portronics Pico 14 projector with 100-inch display, Android 13 OS launched

Portronics has launched the Pico 14, a compact Android 13 smart projector priced at ₹28,349. Weighing just 250g, it

offers 720p resolution, 1600 lumens brightness, and up to a 100-inch display. Features include autofocus, auto keystone correction, Bluetooth 5.4, and HDMI/USB-C connectivity. It runs major OTT apps natively and packs a 4800mAh battery for 60 minutes of wireless playback. tinyurl.com/pp14p1

Apple iPad Pro with M5 chip officially launched

Apple has launched the new iPad Pro powered by the M5 chip, its most advanced processor yet, delivering up to 5.6x

faster AI performance than the M1 model. Available in 11-inch (₹99,900) and 13-inch (₹1,29,900) variants, it features an Ultra Retina XDR tandem OLED display, Wi-Fi 7, and a C1X modem for faster connectivity. It has better multitasking, AI tools, and refreshed accessories. tinyurl.com/m5ipro
