Poco M8 5G launched in India with Snapdragon 6 Gen 3 Chipset

Poco has expanded its M series with the launch of the Poco M8 5G in India, targeting users who want strong performance, a high refresh rate display, and long term software support. The smartphone features a 6.77 inch FHD+ display with an adaptive refresh rate of up to 120Hz, and a peak brightness of 3200 nits. It is powered by the Snapdragon 6 Gen 3 chipset, paired with up to 8GB RAM and 256GB storage. Running HyperOS 2 based on Android 15, Poco promises four years of Android updates and six years of security patches. The phone includes a 50MP camera, a 20MP selfie shooter, and a 5520mAh silicon carbon battery. tinyurl.com/pg5m8wh

Haier H5E series 4K Google TVs with HDR10, Dolby Audio launched in India

Haier India has launched the Haier H5E 4K TV series, expanding its affordable big screen TV lineup ahead of the Republic Day sale. Aimed at value conscious buyers, the range offers 4K resolution with HDR10 support, MEMC smoothing, thin bezels, and seven picture modes. Audio is handled by 20W stereo speakers with Dolby Audio. Running Google TV with 2GB RAM and 32GB storage, it supports popular apps, profiles, and Kids Mode. Connectivity includes dual band Wi-Fi, Bluetooth 5.1, four HDMI ports, and two USB ports. Prices start at Rs 25,990 for the 43 inch model and go up to Rs 57,990 for the 65 inch variant, available via Flipkart during the Republic Day sale. tinyurl.com/sy61g1

LG launches 2026 BEE star-rated air conditioners in India

LG is among the first brands in India to roll out air conditioners compliant with the new 2026 BEE star rating

norms. Available nationwide since January, the updated lineup meets stricter energy efficiency benchmarks and aims to deliver long term savings amid rising power costs. 5 star models under the new norms could save up to Rs 19,000 over 10 years, while smart features like Energy Manager+ enhance energy management. tinyurl.com/hf82h1

Sony LinkBuds Clip with open-ear clip and 37-hour battery launched

Sony Electronics has launched the Sony LinkBuds Clip, open-ear, clip-on truly wireless earbuds designed

for users who want situational awareness. Featuring a 10mm driver, Bluetooth 5.3 multipoint, and 37 hours of battery life with the case, they focus on comfort and clarity over isolation. Priced at \$229.99 in the US, they offer Voice Boost, reduced sound leak, and AI noise reduction, with India availability yet to be announced. tinyurl.com/r9j2l5d

Hisense announces TriChroma XR10 laser projector

Hisense put the spotlight on its TriChroma laser technology with the global debut of the Hisense XR10 TriChroma

laser projector. Designed for dedicated home cinema setups, the XR10 delivers up to 6,000 ANSI lumens and supports projection sizes of up to 300 inches, targeting users who prioritise brightness, colour stability, and long term performance. Hisense positioned the projector as part of its human centric display strategy. tinyurl.com/s78wqs
