

■ **LAPTOP LAUNCH**

HyperX Omen 15 gaming laptop launched

HP has launched the HyperX Omen 15 in India, its first HyperX-branded gaming laptop, introduced under the refreshed HyperX identity. Aimed at serious gamers, the laptop focuses on sustained performance, ultra-low latency, and long-session stability. It is powered by Intel's 14th Gen Core i7-14650HX processor and NVIDIA GeForce RTX 5060 Laptop GPU, delivering up to 170W of total power. The 15.3-inch 2.5K IPS display offers

a 180Hz refresh rate, 3ms response time, 500 nits brightness, and 100 percent sRGB coverage. A standout feature is the 8K polling rate keyboard with a claimed 0.125ms response time. Omen AI, Unleashed Mode, and Omen Tempest Cooling manage performance. Running Windows 11, it supports RGB customisation. Priced from ₹1,49,999, it will be available on Flipkart and select offline stores. tinyurl.com/hpx3902s

Lava Yuva Star 3 launched in India at ₹7,499

Lava has expanded its Blaze series with the Blaze Duo 3 featuring a dual screen design. It sports a 6.67 inch Full HD+ AMOLED display with a 120Hz refresh

rate, along with a 1.6 inch AMOLED rear screen that supports notifications, music controls and selfie previews. The device is powered by the MediaTek Dimensity 7060 chipset, paired with 6GB LPDDR5 RAM and 128GB UFS 3.1 storage for improved performance and faster data access. It houses a 5000mAh battery with 33W fast charging support. The phone features a 50MP Sony IMX752 primary camera. tinyurl.com/ws9u1f

Sony WF-1000XM6 launched with improved ANC

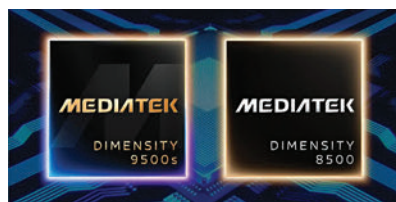

Sony has globally launched the WF-1000XM6 truly wireless earbuds, expanding its flagship 1000X lineup. Priced at roughly Rs 32,000, the earbuds will

be available in Black and Platinum Silver. They feature Sony's new QN3e processor, four microphones per earbud, and upgraded 32-bit audio processing. Sony claims better noise reduction. The earbuds support LDAC, DSEE Extreme, 360 Reality Audio with head tracking, and LE Audio for lower latency. Battery life is rated at up to 8 hours, extending to 24 hours with the charging case, which supports Qi wireless charging. tinyurl.com/du712ws

■ **CHIPSET LAUNCHES**

MediaTek Dimensity 9500s and 8500 chipset

MediaTek has launched the Dimensity 9500s and 8500 chipsets at its Tech Day in New Delhi, targeting flagship smartphones with a focus on performance, AI and next gen connectivity. The 3nm Dimensity 9500s features an All Big Core CPU led by a Cortex X925 at 3.73GHz, Immortalis G925 GPU with ray tracing,

support for 8K 60fps video, 320MP cameras, WQHD+ 180Hz displays, Wi

Fi 7 and 5G Release 17. Oppo's upcoming Find X9s and a future Poco X series device will use the chip. The 4nm Dimensity 8500 offers Cortex A725 cores up to 3.4GHz, Mali G720 GPU, LPDDR5X memory, 4K 60fps recording, WQHD+ 144Hz support, Wi Fi 6E and dual SIM 5G connectivity. tinyurl.com/d71w34
