

Pragyan Celebrates its 22nd Edition on Feb 20-23rd with 'Anachronia' as Central Theme

As Pragyan prepares for its 22nd edition, from February 19 to 22, the Annual International Techno-Manual Fest of NIT Trichy returns with the theme “Anachronia.” ISO 9001 and 20121 certified, Pragyan continues to stand tall as one of NIT Trichy’s proudest legacies and remains one of India’s largest student-run techno-managerial celebrations, conducting a wide array of events, workshops, guest lectures, and more.

A major highlight of Pragyan is the OpenHouse, a two-day showcase of student innovation where projects are presented to faculty and investors. Ingenium, its national-level technical contest, and Sangam, its flagship hardware hackathon, together offer prizes

worth ₹3,00,000. With problem statements from the Indian Navy and leading conglomerates, these competitions attract over 1600+ participants from 200+ colleges nationwide, making it one of the most important competitions in the nation.

This edition features guest lectures from personalities like Anbarasan Thangavelu, Ravi Balakrishna, and Deepika Bhardwaj. Pragyan’s flagship debate, Cross-fire, brings together esteemed panellists such as Harish Mahadevan, Aishwariya Manivanan, Rashmi Samant, Rahul Easwar, and Apoorv Anand. Pragyan also conducts workshops in collaboration with companies like Linux, Samsung, and Mercedes, offering hands-on industry exposure and knowledge.

Beyond the campus, the Pragyan Blog Podcast amplifies its global outreach. Initiatives like Techids and Bag of Delight impact hundreds of students, focusing on giving back to society through impactful initiatives.

Throughout the years, Pragyan has catered to the adrenaline in us. Headlining an entertaining sequence of artists like the B Unique, Akhil Nair, Flute Boxers, and the Laser Man Show, the electrifying Infotainment shows foster a sense of culture and belonging, making it an essential pillar of Pragyan.

More than a fest, Pragyan embodies everything the student community stands for and what NIT Trichy represents in its commitment to student enrichment and growth. Innovative, socially conscious, and student-run. ■
