31

COVER FEATURE

Chip it up

India's semiconductor moment has been "imminent" for so long. And yet, 2026 feels different. Not because the country has cracked leading-edge fabs or outspent the incumbents, but there's momentum and things gathering pace despite all the insurmountable challenges related to building a semiconductor manufacturing ecosystem.

UPDATE

16 | Hardware

New launches, new models, new gadgets... all covered here!
