Asus unveils new Zenbook and Vivobook

A SUS has launched its latest Zenbook and Vivobook laptops in India, focusing on slimmer designs and stronger AI performance across segments. The premium Zenbook lineup includes the S14 with a 14-inch 3K OLED 120Hz display powered by Intel Core Ultra processors, and the Zenbook Duo, which features dual 14-inch OLED screens aimed at heavy multitasking. The Zenbook A series,

powered by Qualcomm Snapdragon X2 chipsets, emphasises efficiency and delivers high AI compute performance in lightweight designs.

Alongside this, the refreshed Vivobook range targets mainstream users with Intel Core Ultra processors, DDR5 RAM, and WUXGA displays, while the

Vivobook S models offer OLED panels, improved battery life, and premium features like Dolby Atmos audio and a dedicated Copilot key. Pricing

starts at ₹98,990 for the Vivobook lineup and goes up to Rs 2,99,990 for higher-end Zenbook models. tinyurl.com/e7wzx5

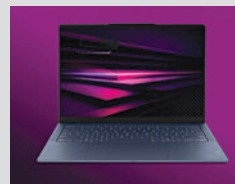

Sony unveils gaming monitor with 720Hz refresh rate

Sony has unveiled the Inzone M10S II, a 27-inch OLED gaming monitor designed for competitive gamers. It offers a QHD resolution with a refresh

rate of up to 540Hz, which can be pushed to 720Hz at 720p in dual-mode. It promises better brightness, colour accuracy, and a fast 0.02ms response time for minimal motion blur. Additional features include a dynamic crosshair, anti-glare coating, brightness compensation, and an esports mode that shrinks the display to 24.5 inches. The monitor is expected to launch at around \$1,099, with India pricing yet to be announced. tinyurl.com/f7839hh

Lenovo launches new laptop with Snapdragon X2 Elite

Lenovo has unveiled the Yoga Slim 7x globally, its first laptop powered by the Snapdragon X2 Elite chipset. The 14-inch device features an OLED

display, with options ranging from a 1200p 60Hz panel to a 2.8K 120Hz variant with up to 1100 nits brightness. It packs a 70Wh battery, with Lenovo claiming over 24 hours of usage on a single charge. Paired with up to 32GB LPDDR5X RAM, it targets performance and efficiency. The design is slim and minimal, though port selection is limited. Pricing starts at \$1,739 globally, with India launch details yet to be announced. tinyurl.com/spe029n
