

ONEPLUS NORD 6 VS NOTHING PHONE 4A PRO

WHICH MID-RANGER MAKES MORE SENSE?

Siddharth Chauhan | editor@digit.in

The OnePlus Nord 6 just made its India debut in the mid-range segment which happens to be one of the most competitive tiers in the India's smartphone market. It arrives at a time where rumours are rife and reports circulating about OnePlus scaling back its presence in markets such as the US and Europe. In India, however, the mid-range segment

remains a priority and the Nord 6 is clearly built to make a statement in it. The Nord 6 goes up against a multitude of phones in this segment but its most direct competition comes from the Nothing Phone 4a Pro which launched last month. Nothing and OnePlus share more history than most smartphone brands, tracing back to the same co-founder, Carl Pei, which makes this a particularly intense rivalry.

Price and storage

The OnePlus Nord 6 price in India starts at Rs 38,999 for the 8GB + 256GB variant and Rs 41,999 for the 12GB + 256GB storage option. The Nothing Phone 4a Pro opens at Rs 39,999 for the base 8GB + 128GB which is a slightly more expensive starting point by Rs 1,000, Rs 42,999 for the 8GB + 256GB variant and climbs to Rs 45,999 for the 12GB + 256GB configuration.
