

Coding facts and figures

Coding is a fascinating area to explore. Here are some weird and wonderful facts and figures you may not know about it.

HELLO
My name is
ADA

In **1980**, the American Department of Defense named a new computer language **ADA**, after the first computer programmer.

HALO

GUDE

If coding was a country, the people living there would speak the **third highest number of languages** in the world, after the people in Indonesia and Papua New Guinea.

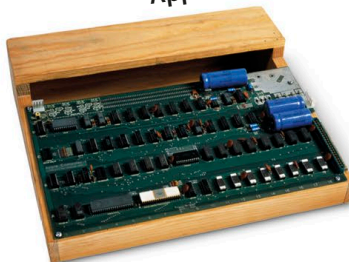

The world's youngest computer programmer qualified as a Microsoft Office professional at age 6!
