

# Dinosaur facts and figures

Dinosaurs were a fascinating group of reptiles. Here are some weird and wonderful facts you might not know about them!

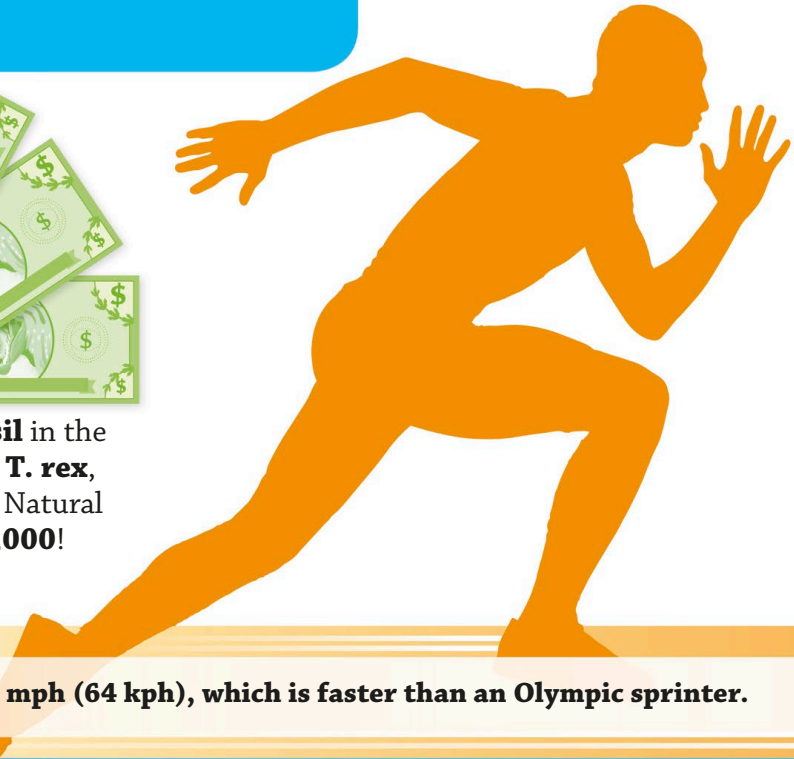

## TROODON

is thought to have been the smartest dinosaur because it had a large brain compared to its relatively small size.

The **most expensive dinosaur fossil** in the world is the **skeleton of “Sue” the T. rex**, which cost the The Field Museum of Natural History in Chicago, USA, **\$8,362,000!**

**Compsognathus had a top speed of 40 mph (64 kph), which is faster than an Olympic sprinter.**

# 12

is how old the English fossil hunter Mary Anning was when she found the first ichthyosaur, a type of ancient marine reptile.

# 2,300

The first dinosaur discovery might have been as long as 2,300 years ago, when a Chinese man called Chang Qu wrote about finding some “dragon” bones.
