

JONAH AND THE WHALE

The Bible tells the story of Jonah, who spent three days inside a whale. An adult human could easily fit inside a whale's stomach, but it is unlikely that he or she would survive.

A baleen whale's jawbone is far larger than that of a toothed whale.

What a whopper!

The blue whale's massive jawbones are sometimes erected as arches. Here they frame a doorway of a popular fisheries museum in Nova Scotia, Canada.
