

△ **Panzer 61**

Date 1961 **Country** Switzerland
Weight 42.6 tons (38.6 tonnes)
Engine MTU MB837 Ba-500 diesel, 630 hp
Main armament 105 mm L7 L/52 rifled gun

The Panzer 61 was developed for Swiss terrain—steep mountains and narrow train tunnels. It replaced the Centurion, with 150 built. The original coaxial 20 mm cannon was later replaced with a more conventional 7.5 mm machine gun. It served until the 1990s.

△ **Sherman M-51**

Date 1965 **Country** Israel
Weight 43 tons (39 tonnes)
Engine Cummins V8 diesel, 460 hp
Main armament 105 mm Modelé F1 L/44 rifled gun

The M-51 upgrade was applied to 76 mm-armed M4A1 Shermans. In addition to the modified French gun, the transmission, ammunition racks, and rear of the turret were all replaced. M-51s fought in 1967, and were pressed back into service in the Yom Kippur War of 1973.

▷ **Vijayanta**

Date 1965 **Country** India
Weight 43 tons (39 tonnes)
Engine Leyland L60 diesel, 535 hp
Main armament 105 mm L7A2 L/52 rifled gun

The Vijayanta was based on the British Vickers Mark 1, which was privately developed for export. Use of components common to the Centurion, already used in India, made maintenance and training simpler. Around 2,200 were built.

▽ **Strv 103C (S-Tank)**

Date 1967 **Country** Sweden
Weight 43.7 tons (39.6 tonnes)
Engine Rolls-Royce K60 multifuel, 240 hp and Caterpillar 553 gas turbine, 490 hp
Main armament 105 mm Bofors L/62 rifled gun

The Strv 103 was intended to fight defensively, ambushing the enemy then escaping; its low profile and second, rear-facing driver made it very effective in this role. The autoloading gun was aimed by steering and adjusting the height of the hydropneumatic suspension.
