

▷ A7V Sturmpanzerwagen

Date 1918 **Country** Germany

Weight 33.6 tons (30.5 tonnes)

Engine 2 x Daimler gasoline, 100 hp each

Main armament 5.7 cm Maxim-Nordenfolt gun

Germany built just 20 A7Vs, based on the Holt tractor. It had a crew of 18, which operated six machine guns and a 57mm gun. The driver sat at the top and could drive in either direction. It entered service in March 1918, but saw less action than Germany's captured British tanks.

Exhaust pipe and silencer

Engine compartment ventilation louver

Two Tylor gasoline engines

White/Red/White Allied recognition mark

▷ Renault FT-17

Date 1918 **Country** France

Weight 7.2 tons (6.5 tonnes)

Engine Renault 4-cylinder gasoline, 35 hp

Main armament 37 mm Puteaux SA 18 L/21 gun

The FT was the first tank to have the now-standard layout of engine at the rear, crew at the front, and a fully rotating turret. Armed with either a Hotchkiss machine gun or a 37 mm cannon, it played a major role in the French victories of 1918. It was widely exported, and many were still in use in 1940. Over 3,000 were built.

Tail for managing trench crossings

Length sufficient for crossing German trenches

5.7 cm Maxim-Nordenfolt gun

Two four-cylinder Daimler engines

◁ Medium Mark A Whippet

Date 1918 **Country** UK

Weight 15.7 tons (14.2 tonnes)

Engine 2 x Tylor gasoline, 45 hp each

Main armament 3 x .303 Hotchkiss Mark I machine guns

Intended as a fast tank, the three-man Whippet could reach 8 mph (13 km/h). Each track had its own engine, and steering was controlled by adjusting the two throttles. Whippets were first used in March 1918 and played a significant role in the open warfare of the final months of the war.

37 mm main gun

Rear drive sprocket

Vertical spring suspension

◁ Mark V

Date 1918 **Country** UK

Weight 32.5 tons (29.5 tonnes)

Engine Ricardo gasoline, 150 hp

Main armament 2 x QF 6-pounder 6 cwt Hotchkiss L/23 guns

The Mark Vs were similar in armament and speed to their predecessors, but they had a new epicyclic gearbox that enabled them to be driven by one man. They played a key role in the Allied victory in 1918, and saw postwar service in Ireland, Germany, and Russia. Four hundred were produced.
