

Digit Community, assemble!

For a trip down memory lane
like no other...

Over the last couple of months, we asked you to send us your memories of Digit, what this magazine, your friendly neighbourhood tech navigator, means to you. And you folks didn't disappoint. Compiling these responses had us teary-eyed and nostalgic at the same time. It also gave the current team awesome insights into what Digit means for its community. Without your love and support, we wouldn't have reached this milestone. Thank you!

Here are just a few of the responses shared with us over the past couple months.

#1 A boarding school memory of stationary shops and software DVDs

I still remember buying Digit magazines whenever we were given leave for an outing from our boarding school. There was a shop in Mallital, near the statue of Govind Ballabh Pant, an elderly couple used to run and sell stationary. The magazine used to be stuffed with amazing tech tidbits, but the real highlight was the free DVD full of software and games.

The magazine copies were kept with me for years before I eventually gave them to someone. Since my parents are teachers, books are abundant in our home, and there is only so much we can hoard in a single household.

I am also sure that this CD case must have impressed some people; it is surprisingly well-made. I don't actually remember how I came to have it. Congratulations to everyone involved in creating the element that compounded as a part of my sweet childhood.

#2 Graphic card shootouts and a long awaited magazine subscription

I remember reading the old graphics card shootouts where there used to be direct comparisons between all the graphics cards from different companies and the one in particular was during the time of the Nvidia 6800 GT series which, as far as I remember, even NFS Underground 2 and Halo games were used to benchmark. Also the next best moment was when I actually started my subscription in 2020. Which was when I realised I can afford to subscribe to the magazine now. While I was actually looking for SKOAR! subscription but came to know that it has been subsumed into Digit magazine. Hence I went and got the subscription. Please can you bring back the complementary DVDs?

— Dorje Bodh, Shimla

Digit response: Sorry Dorje, DVDs are part of Digit nostalgia now – where they rightly belong.
