FOLDABLE FLAGSHIP LAUNCH

Samsung Galaxy Z Fold 8 Ultra vs Galaxy Z Fold 7

Samsung has expanded its foldable portfolio with the new Galaxy Z Fold 8 Ultra, a premium foldable that sits above the standard Fold lineup. It gets a new titanium-based form factor,

upgraded battery, performance and camera. It starts at Rs 1,99,999 for the 12GB + 256GB variant, going up to Rs 2,59,999 for the 16GB + 1TB version. The Ultra packs a 5,000mAh battery with 45W wired charging, a 200MP primary camera with an

upgraded 50MP ultra-wide, the Snapdragon 8 Elite Gen 5 chipset, and Android 17 with One UI 9. Pre-orders are live, with sales set to begin on August 7. <https://tinyurl.com/yhkzpck7>

FOLDABLE LAUNCH

Samsung Galaxy Z Flip 8 upgrades

Samsung has introduced the Galaxy Z Flip 8 at Unpacked 2026. It retains the familiar design language but with a newer Exynos chipset and Galaxy AI. At 180 grams, it is Samsung's lightest and thinnest Flip phone to date. It features a 6.9-inch Dynamic AMOLED 2X main display, a 4.1-inch cover panel, the Exynos 2600 with 12GB RAM, a 50MP primary and 12MP ultra-wide camera, and a 4,300mAh battery with 25W charging. The FlexWindow works as an AI-first interface with Now Brief and Gemini Intelligence. tinyurl.com/2v8jhc43

One UI 9 with new Galaxy AI features at Unpacked 2026

Samsung has launched the stable build for One UI 9, a skin based on the latest Android 17 that brings various improvements. It

introduces new AI tools, starting with Now Nudge, which watches what's on your screen and pops up helpful shortcuts at the right moment. A new AI assistant activity dashboard gives a clear view of all AI actions performed. The new foldables come with a built-in Gemini Notebook, and Gemini Intelligence can now work across more than 40 supported apps and services. One UI 9 first comes with the Galaxy Z Fold 8 and Z Flip 8. tinyurl.com/42ky56zy

Samsung Galaxy Z Fold 8 vs Galaxy Z Fold 7

The Galaxy Z Fold 8 is an entirely different product this year, featuring a wide 5.5-inch outer display and a 7.6-inch main display in a 4:3 aspect ratio form factor that folds much smaller than either the Fold 7 or Fold 8 Ultra. It starts at Rs 1,79,999 and is meaningfully lighter at 201g versus the Fold 7's 215g. The camera moves to a dual system, a 50MP main and 50MP ultra-wide, dropping the telephoto. Battery is a straightforward upgrade at 4,800mAh with 45W charging. It is simply a different phone built around a different use case. tinyurl.com/59m9e63z
