Here's what the outcome would look like:

- 1 If you win the first bet, you win ₹1000.
- 2 If you lose the first and win the second bet, you end with a net profit of ₹1000 ($₹2000 - ₹1000$).
- 3 If you lose the first two bets ($₹1000 + ₹2000 = ₹3000$) and win the third bet, you end up with a net profit of ₹1000 ($₹4000 - ₹3000$).
- 4 If you lose the first three bets ($₹1000 + ₹2000 + ₹3000 = ₹7000$) and win the fourth bet, you end up with a ₹1000 net profit ($₹8000 - ₹7000$).
