

BUYER'S PERSPECTIVE

We can see that the strike price is ₹2200 and the market price is ₹2100. In this case, the options buyer can buy the asset for cheaper in the market as compared to the option contract. In this case, where Market Price < Strike Price, the buyer will not exercise the call option and let it expire. In this case, Loss for Options Buyer = ₹50 (Premium amount that they had paid)
