

● For Call Option,

IN-BUILT VALUE = PRICE OF UNDERLYING ASSET - STRIKE PRICE

● For put Option,

IN-BUILT VALUE = STRIKE PRICE - PRICE OF UNDERLYING ASSET

For instance, using the option chain for a call option you have,

The In-Built Value then, for the call option, will be,

Price of the Underlying Asset – Strike Price.

₹15,752 – ₹15,700

₹52

THIS **₹52** IS THE IN-BUILT PROFIT OF
THE OPTION EMBEDDED IN THE PREMIUM
AMOUNT.
