

# HOW TO USE THIS BOOK?

- **Learn By Doing:** This book like any other book is designed in a Hands-on Manner. You learn the most when you actually do something along rather than just reading/listening about it. Make sure you practice along to get the maximum value out of this book. Practice, practice, and practice. That is the key!

- **QR Codes and Explainer Videos:** At ZebraLearn we like to go the extra mile. For each topic, you have an Explainer Video as a QR code. You can use any QR code scanner to scan these and access them. You do not need to go through each Explainer Video. It is already covered in the text. But, wherever you face difficulty understanding the topic, scan the QR code next to the topic and you have your Explainer.

**LET'S GET STARTED WITH OUR LEARNING. IT IS GOING TO BE AN AMAZING LEARNING EXPERIENCE!**
