

1. Zoho Office Suite & Workplace: Your All-in-One Indian Office

Chennai-based Zoho Corporation has built a global SaaS powerhouse around its Office Suite, used by over 100 million users and reporting \$1.4 billion in revenue for 2024 – up 27 percent year-on-year. Its integrated Zoho Workplace bundle – comprising Writer, Sheet, Show, Zoho Mail, Zoho Cliq, and Zoho Docs – rivals Microsoft 365 and Google Workspace, all while offering competitive pricing and granular data-sovereignty controls.

Signing up and initial setup

1. **Visit Zoho Workplace:** Go to <https://www.zoho.com/workplace/> and click Sign Up for Free.
2. **Choose Your Plan:** Select the Free Forever tier (includes up to 25 users, 5 GB/user) or explore the Standard/Premium plans for additional storage and apps.
3. **Create Account:** Enter your email and password, verify via link, then set your organization name.

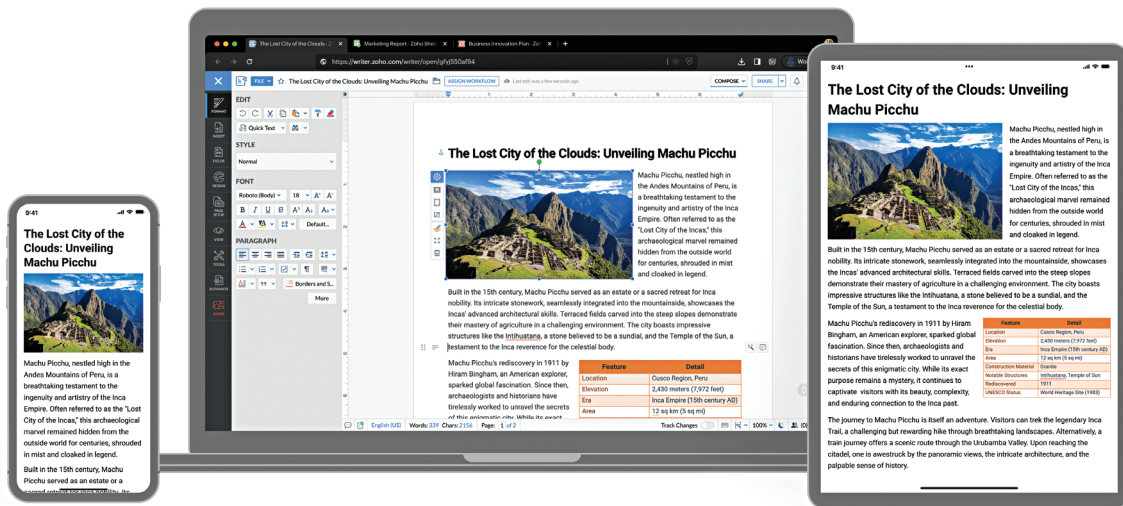

- Use built-in functions (SUM, VLOOKUP) and Pivot Tables for analysis.
- Simultaneous editing: see collaborators' cursors in different colors.

3. Show (Presentations)

- In Show, select Blank Presentation or an India-themed template.
- Add slides, images, and transitions.
- Embed live charts from Sheets by clicking Insert → Chart.

Zoho Mail & Cliq: Integrated communication

- **Zoho Mail:** Supports custom domains, email retention policies, and two-factor authentication.
 - **Zoho Cliq:** Team chat with channels, direct messages, and built-in bots (e.g., "Leave Bot" for time-off requests).
- Tip:** Enable Zoho One Auth (single sign-on) to streamline access across all Zoho apps.

4. **Verify Domain (Optional):** For custom email (@yourdomain.com), add DNS records as guided in Zoho Mail setup – takes under 15 minutes.

Creating and collaborating on documents

1. Writer (Docs)

- Navigate to Writer in the Workplace dashboard.
- Click New Document → choose Blank or Template.
- Type or paste your content; use Comments (right-click text → Comment) to collaborate in real time.
- Share via the Share button: set view/edit/comment permissions and invite by email.

2. Sheet (Spreadsheets)

- Open Sheet, click New Spreadsheet, and enter data.

2. Collaborative Tools & Video Conferencing
