

with over 900 000 downloads initially. In the sections that follow, we chronicle each title's genesis, highlight step-by-step guides to playing, and share safe-gaming best practices for families and serious gamers alike.

1. Ludo King: Digital dice for the masses

Ludo King, developed by Gametion (Navi Mumbai), modernized the ancient board-game Pachisi into a free-to-play mobile app in February 2016. By January 2020, it had surpassed 300 million downloads and 75 million monthly active users, further soaring during lockdowns to 1 billion+ total downloads globally.

Starting a match with friends

1. **Install & Launch:** Download from Google Play or App Store; open Ludo King.
2. **Sign In:** Use Google, Facebook, or Guest mode.
3. **Create Room:** Tap "Create", choose Private, set Room Name and Password, then Confirm.
4. **Invite Friends:** Share the Room Code via WhatsApp or SMS; friends enter code under Join Room.
5. **Start Game:** Once all players join, tap Play. Use the Voice Chat icon to enable banter.

Key Features & Tips

- **Cross-Platform Play:** Connects iOS, Android, Windows users seamlessly.
- **Local Languages:** UI in 15+ languages, widening appeal beyond metro users.
- **Daily Rewards:** Log in each day for bonus coins to play head-to-head or in tournaments.

2. FAUG: Domination – India's homegrown military FPS

FAUG: Domination, developed by Nazara Publishing's DotNine Games, is a fast-paced multiplayer first-person shooter that transports players into iconic Indian locales – from Delhi's metro corridors to Jaisalmer's desert forts – defending the nation as elite FAU-G operatives. Launched in May 2025 on

Android (with Windows support forthcoming), FAUG: Domination has quickly become one of India's most ambitious FPS titles.

Core gameplay modes

1. **Team Deathmatch (5v5):** Two squads of five compete in classic elimination rounds on compact maps like Chennai Port and Mumbai Streets, with respawns disabled until a round ends.
2. **Sniper Duels:** One-shot, one-kill encounters test precision; ideal for sharpshooters lurking atop Delhi high-rises.
3. **Weapon Race:** Players cycle through a predetermined weapon roster – pistols to rifles – earning points for eliminations; the first to master the final weapon wins.
4. **One-Shot Kills:** A free-for-all where every hit is fatal, emphasizing stealth and map knowledge.
5. **Seasonal Battle Pass:** Offers cosmetic skins inspired by Indian military uniforms, exclusive weapon camos, and XP boosts – earnable through daily and weekly challenges.

Getting started

1. **Download & Installation:** Search "FAUG: Domination" on Google Play, tap Install, and open the app.
2. **Permissions:** Grant Storage and Microphone access to enable voice chat and map downloads.
3. **Account Setup:** Register with email or link your Google account; your in-game avatar and progression sync across devices.
4. **Control Layout:**
 - **Movement:** Virtual joystick (left screen).
 - **Aiming & Shooting:** Drag on the right screen; tap Fire and Reload buttons.
 - **Grenade & Melee:** Dedicated icons near firing controls.
5. **Voice Chat:** Tap the mic icon to speak with teammates – essential for tactical coordination.

Maps and design

- **Delhi Underground:** Navigate narrow tunnel networks, using tight corners for ambushes.
