

suite of apps – including Moj for short videos – and raised over \$1.2 billion in funding by mid-2025.

Getting started with ShareChat

1. **Download the App:** Visit Google Play or the App Store, search for “ShareChat,” and tap Install.
2. **Choose Your Language:** On first launch, select one or more of the 15 supported Indian languages (e.g., Hindi, Tamil, Telugu, Marathi) to tailor your feed.
3. **Sign Up:** Register with your mobile number; enter the OTP received via SMS to authenticate.
4. **Set Up Your Profile:** Add a profile picture, username, and bio (in any chosen language). This helps others find and connect with you.

BEST PRACTICES ON INDIAN SOCIAL APPS

- **Language Localization:** Always set your preferred regional language in Settings → Language to receive tailored content.
- **Hashtag Strategies:** Use native-language hashtags (e.g., #गुडमॉर्निंग for Hindi “Good Morning”) to maximize reach in vernacular communities.
- **Engagement Etiquette:** Participate respectfully – upvote, comment, and share local creators’ content to build goodwill.
- **Data Privacy:** Review each app’s Privacy Policy under Settings; disable location sharing if unnecessary.
- **Cross-Platform Promotion:** Link your profiles (e.g., Moj bio → ShareChat profile) to funnel followers across apps.

By embracing these tactics, you’ll not only enjoy richer, regionalized experiences but also contribute positively to India’s dynamic social media tapestry.

5. **Explore Content:** The app’s For You feed displays region-specific jokes, videos, and status updates. Swipe to scroll through curated content in your language.

Creating and sharing posts

- **Text Posts:** Tap the “Aa” icon, type your message in your native script, and hit Post.
- **Image/Meme Sharing:** Tap Camera, capture or select an image, add stickers or text overlays, and share it with relevant hashtags (#Bollywood, #Diwali).
- **Video Clips:** Use the Video option to record up to 60 seconds of video. Add background music, filters, and captions before posting.
- **Community Chats:** Join public or private chat groups based on interests (film, poetry, cooking) and participate in threaded conversations.

By prioritizing regional languages and localized content recommendations, ShareChat fosters vibrant subcultures – whether you’re following cricket fan clubs in Punjabi or cooking communities in Kannada.

2. Moj – Short-form videos, Indian style

Launched by ShareChat in mid-2020 after TikTok’s ban, Moj has rapidly become India’s top short-video app, surpassing 100 million downloads in its first year and continuing to grow into 2025.

Installing and onboarding

1. **Install Moj:** Search for “Moj” on Google Play or the App Store and tap Install.
