

Creating and monetizing content

- **Video Creation:** Tap the camera icon, record up to 60 seconds, apply filters, and add background music.
- **\$GARI Rewards:** Each like, share, and comment can earn you \$GARI – tracked in your in-app wallet.
- **Live Streaming:** Tap Go Live in the camera menu; viewers send GARI coins as virtual gifts.
- **Cash Out:** Once you reach the minimum token threshold, navigate to Wallet → Withdraw, choose your bank, and convert tokens to INR.

Chingari's blockchain-based rewards incentivize high-quality, culturally relevant videos, giving creators a direct revenue stream unlike most global short-video rivals.

Emerging Platforms – Trell, Public, and Lokal

Trell – Lifestyle videos and social commerce

Trell combines user-generated lifestyle videos with e-commerce recommendations, boasting over 100 million users and 15 million creators as of early 2025.

Getting started

1. **Install Trell:** Search “Trell” in app stores; tap Install.
2. **Language & Interests:** Choose from 8 Indian languages and select interest categories (fashion, travel, cooking).
3. **Create Your First Story:** Tap “+”, record a 3-minute video or upload images; tag products using Trell's shopping integration.
4. **Monetization:** As a creator, link your affiliate accounts to earn commissions on product sales generated through your videos.

Trell's seamless blend of content and commerce makes it ideal for influencers aiming to showcase and sell local brands.

Public – Citizen journalism for local news

Public is a hyperlocal, citizen-driven news and social app that had 8 million users by mid-2023; continuing growth is driven by grassroots reporting in thousands of towns.

Getting started on public

1. **Install Public:** Available on Play Store/App Store; tap Install.
2. **Sign Up:** Authenticate via mobile OTP.
3. **Location Access:** Grant GPS permission to receive real-time neighborhood updates (traffic jams, local events).
4. **Report News:** Tap “+”, record a video or write a post about local incidents, and publish to your locality's feed.
5. **Follow Reporters:** Subscribe to trusted citizen journalists and receive notifications for new posts.

Public empowers everyday users to become on-the-ground reporters, fostering hyperlocal engagement absent on national platforms.

Lokal – Regional news and community discussions

Founded in 2018 by Vipul Chaudhary and Jani Pasha, Lokal serves India's non-English speaking population through regional news, job listings, and classifieds, backed by a Series B funding round in 2025.

Using Lokal

- **Install Lokal:** Download from Play Store or App Store; tap Install.
- **Language Choice:** Select from 10+ regional tongues (including Bhojpuri, Odia).
- **News Feed:** Swipe through curated local news articles, video clips, and community discussions.
- **Post Classifieds:** Tap “Sell” to list items (mobiles, furniture) in your district.
- **Community Q&A:** Ask or answer questions about local issues – ranging from municipal permits to school recommendations.

Lokal's focus on vernacular news and practical classifieds cements its role as the go-to app for regional information needs.
