

features into a clean, intuitive interface. From reminders and calendars to collaborative project lists, TickTick helps you break down tasks and stay on top of deadlines.

1. Create Your Account

- Sign up with email or a social media account.
- The app will sync across multiple devices, ensuring your tasks stay up-to-date.

2. Add Tasks and Subtasks

- Tap the plus icon to add a new task.
- For complex tasks, break them into subtasks (e.g., “Draft outline,” “Edit draft,” “Submit final version”).

3. Set Reminders

- Tap on a task and set due dates, reminders, and priorities (High, Medium, Low).
- Choose whether you want a reminder a day before, an hour before, or at a custom time.

4. Use the Calendar View

- TickTick’s built-in calendar provides a visual overview of upcoming tasks.
- Drag tasks around within the calendar to quickly change due dates.

5. Collaborate With Others

- TickTick allows you to share lists and assign tasks to family members or coworkers.
- Great for planning group projects or splitting household chores.

Pro Tip: Explore TickTick’s habit tracker feature, which works similarly to standalone habit apps. Create a dedicated list for daily habits like reading, exercise, or meditation.

Mindly

Mindly is a visual mind-mapping tool that turns your ideas, thoughts, or plans into nested circles, creating an intuitive, colourful map of your brain’s brainstorming sessions. It’s perfect for outlining essays, planning projects, or even mapping out personal goals.

1. Create a New Mind Map

- When you open the app, tap the plus icon to create a fresh map.
- Centre it around a main topic – e.g., “New Business Idea” or “Life Goals.”

2. Add Subtopics

- Tap the central circle and select the plus to add a branch or a new subtopic circle.
- Label each subtopic to keep your map organised.

3. Customise Colours and Icons

- Colour-code branches to highlight priorities or group related ideas.
- Use icons to denote specific tasks or categories.

4. Embed Notes

- Each circle can hold text notes, links, or images.
- For example, if you have a “Marketing Strategy” circle, add relevant URLs or bullet points inside it.

5. Zoom In and Out

- Pinch to zoom in if you want to see details of a subtopic or zoom out for an overall view.
- This visual hierarchy helps you see how different ideas connect.

Pro Tip: Use Mindly for brainstorming sessions – capture any idea immediately, without worrying about structure. You can reorder subtopics later as your plan solidifies.

Journey

Journey is a journaling and diary app designed to help you record personal thoughts, track mood patterns, and reflect on your daily experiences. Its clean, distraction-free interface encourages regular writing – an essential habit for mental well-being and self-awareness.

1. Sign In and Set Up

- Create an account so your entries sync securely across devices.
- You can enable passcode or fingerprint lock for privacy.

2. Begin Your First Entry

- Tap the “+” button to open a blank entry.
- Include a title or just start writing about your day. You can also add photos, videos, or audio notes.

3. Add Tags and Locations

- Tag entries to easily find them later (e.g., “Travel,” “Work,” “Personal Growth”).
- Allow the app to access your location if you’d like to remember where you wrote a particular entry.

4. Track Mood and Weather

- Journey automatically captures the weather and location data (if enabled).
- Add mood indicators (happy, anxious, tired) to spot patterns over time.

5. Review Your Timeline

- Flip through your entries in the calendar or timeline view to reflect on your progress.
- Export entries as PDFs or sync them with Google Drive to keep them backed up.
