

Smartphone Customisation Apps

Your phone, your style

A smartphone can be more than just a tool – it can be an extension of your personal style and workflow. By customizing elements like home screens, widgets, icons, and notifications, you create an interface that's as functional as it is aesthetically pleasing.

This chapter introduces must-try apps for users who want to tailor every detail of their device. From crafting bespoke widgets to overhauling your home screen layout, you'll find step-by-step guidance to transform your smartphone into a unique reflection of your tastes and needs.

KWGT Kustom Widget Maker

Widgets play a crucial role in providing quick info at

a glance – weather updates, calendar events, to-do lists, and more. KWGT Kustom Widget Maker lets you design completely custom widgets in terms of size, shape, color, and functionality.

1. Install & Open

- Download KWGT from your app store. Launch it and grant permissions as prompted.

2. Create a Blank Widget

- Long-press on an empty space on your home screen, select "Widgets," and choose a KWGT widget size. Tap it to open KWGT.
