

conventional instruments and for voice (the first of his three wives was the US mezzo-soprano Cathy Berberian, a notable interpreter of his music). Although his work is intellectually complex, it has also been described as compassionately human, with strong lyrical and dramatic elements, as well as humor. Berio taught at various institutions in Europe and the US and he was regarded by many of his admirers as a kind of musical guru.

Hans Werner Henze

1926–2012, GERMAN

Although he worked in various genres, Henze was above all a man of the theater—the leading avant-garde opera composer of his generation. He spent his early career in Germany, then moved to Italy in 1963; he also traveled widely to supervise and conduct his work and to teach (in Cuba, England, and the US, for example). His work was strongly influenced by his socialist political views—he said he always wanted to produce “something the
