

composer was soon largely forgotten, but interest revived in the 19th century, especially after Mendelssohn's performance of the St. Matthew Passion in Berlin in 1829.

By the century's end, Bach had become famous enough for his body to be dug up and reburied in a stone sarcophagus. His remains now lie in Leipzig's Thomaskirche.

“ Bach was the most prodigious organist and keyboard player that there has ever been. ”
