

BE A SOIL SCIENTIST

Microbe meal

You will need: a trowel, card, a shovel, a pen, tape, a stick, and an old

Healthy soils are home to organisms, from earthworms to tiny microbes. If you've got a garden, bury a cotton sock to find out if the soil is full of hungry things. Make sure the sock is 100% cotton!

Worm hotel

You will need: a 2-litre disposable plastic bottle, scissors, garden compost,

Earthworms spend their lives hidden from view. Build them a worm hotel to discover what they do in the soil, before returning them to the soil to carry on the good work.

Perfectly Wonky carrots

You will need: a patch of soil for growing, a trowel,

Stones and twigs are often removed from the soil before carrots are grown. This is so they grow straight down without objects blocking their way. See what happens otherwise...
