

We do realize that 2-3 pages on black money will not miraculously make people change their behaviour and it is a very secretive subject for most people. However, it is important to know the financial, legal, and ethical implications of the same and then take a call. We do not encourage black money. Those who decide to continue with it are opting to commit major blunders. Those who decide to switch might consider a voluntary disclosure. That is beyond the scope of this book, and they will have to consult an expert that they trust to help them with it.

We have understood the 6 reality influences or 'barriers' that comes in the way of people following their lazy financial plan. We have seen how to deal with them systematically and make them a part of our Lazy Plan. These barriers take time to overcome but this is the hard part which once overcome, makes it easier to follow through the rest of the Lazy Financial Plan.
