

For taxes, interest on fixed deposits is added to regular income and taxed based on tax slabs that we fall into. There are some provisions for senior citizens as we saw in the tax profiling stage.

With this, we end our discussion on fixed deposits. We need to remember, fixed deposits are more from a security perspective rather than a growth perspective and should be used to meet short term financial requirements. Also, we should not focus on interest rates here as much as we should with whom we are making a deposit.
