

SENSEX

Sensex is an index of the top 30 listed companies in India. Sensex is managed by the Bombay Stock Exchange (BSE). Each company is given a weight and together they form what is called Sensex. The companies keep changing and so does the weight of each one.

Nifty works in a manner exactly similar to Sensex, however, instead of covering the top 30 companies in India, they cover the top 50 companies. However, Nifty is managed by the National Stock Exchange (NSE).
