Let's look at the annual report of Godawari Power and Ispat Co. Ltd. We find that a large portion of the stock is owned by promoters.

So, this company is run by its promoters. Thus Godawari Power and Ispat Co. is an owner-operated company.

On the other hand, if someone else was the CEO who owned just 1-2%, then we could conclude that it is a professionally operated company rather than an owner-operated company.

What % of management's net worth is there in this company?

This number essentially tells us the importance of a company to the management's overall wealth. Ideally, this number should be high, generally most people earn their wealth from 1-2 companies.
