

Assets

The total assets of this company are Rs. 5,008 cr.
What are the major assets value-wise?

- Trade receivables account for approximately 37% of the assets.
- Outstanding inventory accounts for Rs.1,562 crores.
- Property, Plant, and Equipment are worth Rs. 819 crores.

Roughly if we combine these three elements,

Rs. 1800 Cr. (Debtors)
+ Rs. 1600 Cr. (Inventory)
+ Rs. 800 Cr. (Plant, Property & Equipment)
= Rs. 4200 Cr. (Total)

These items account for around 84% of the assets, so we will have to dig deeper to determine their constituents.

Other assets which are present are significantly smaller in size. Hence, we will not pay as much attention to small figures and we won't analyze them in much detail.

Liabilities

The Equity and Liabilities of this company is around Rs. 5,000 Cr.

- Apar Industries owes Rs 3000 crores to its creditors.
- The equity shareholders also known as the owners own about Rs. 1400 crores of equity.

Thus 90% of the amount is split a little unevenly between the creditors and equity.
