

You might want to focus on cases where the ROE is either increasing or decreasing. In this scenario, you can set up a screen to identify companies where the average ROE over the past five years is lower than the return over one year. This way, you can pinpoint companies that exhibit the trend you're interested in exploring further.

Create a Search Query

Query

Average return on equity 5Years < Return over 1year

Return over 1year

Price change over last year in percent

Value in: %

Only companies with Dec 2023 results
