

To further refine the search, **additional criteria** can be applied. For instance, within the brackets, the screen specifies that companies should have a **sales growth over the past three years**, indicating sustained revenue growth alongside capacity expansion. Additionally, the netblock, which represents the fixed assets of the company, should also exhibit growth, further emphasising the company's investment in expanding its operational capacity.

Capacity expansion

Companies undergoing major capacity expansion. Companies where fixed assets have doubled over last 3 years or fixed assets (including CWIP) have increased over 50% in last one year.
