

9. Accessing Company Documents: Screener offers access to various documents for analysing companies, including announcements and disclosures from BSE or NSE. Users can explore this tab in the following

- ways:

Read Annual Report: The annual report contains sections like board reports, financial statements, and management discussions, offering insights into the company's operations and future goals beyond Screener's data.

Access Credit Ratings Reports: Credit ratings reports from agencies like CRISIL and ICRA provide detailed analyses of a company's strengths, weaknesses, and financial stability, aiding in assessing its creditworthiness.

Review Day-to-Day Announcements: Stay updated on corporate events like share issuances and client acquisitions through daily announcements on Screener, providing a comprehensive overview of the company's developments.

Utilise Conference Call Transcripts: Gain short-term insights into a company's performance by accessing conference calls discussing quarterly reports and business updates, along with transcripts for detailed analysis.

Read Industry Reports: Consider industry reports and insights from professionals like CEOs and CFOs beyond Screener for a deeper understanding of market trends and industry dynamics, enhancing investment decisions with broader context and expertise.
